AI in Science Strategy

Horizon Europe Calls 2026

Support to applicants

AI in Science

Integrating AI in science can:

- transform scientific work making it more original and creative
- accelerating scientific discovery
- amplifying the impact of science

thereby improving **competitiveness** and addressing **societal challenges**.

The AI in science policy journey

Next step: ERA Action on AI in Science

22 EU Member States

- Austria, Belgium, Bulgaria, Croatia, Cyprus, Czechia, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Latvia, Lithuania, Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden

7 Associated countries

- Bosnia and Herzegovina, Iceland, Moldova, Norway, Türkiye, Ukraine, United Kingdom

16 Stakeholder Organisations

- ALLEA, Aurora, CESAER, Coimbra, EARTO, ECIU, ERIC Forum, EUA, EU-LIFE, Individual researchers, Science Europe, SPARC Europe, STM, The Guild, UAS4EUROPE, YERUN

Objectives:

aligned policies on AI in Science, including common identification of priority areas

greater expertise and resource sharing across countries

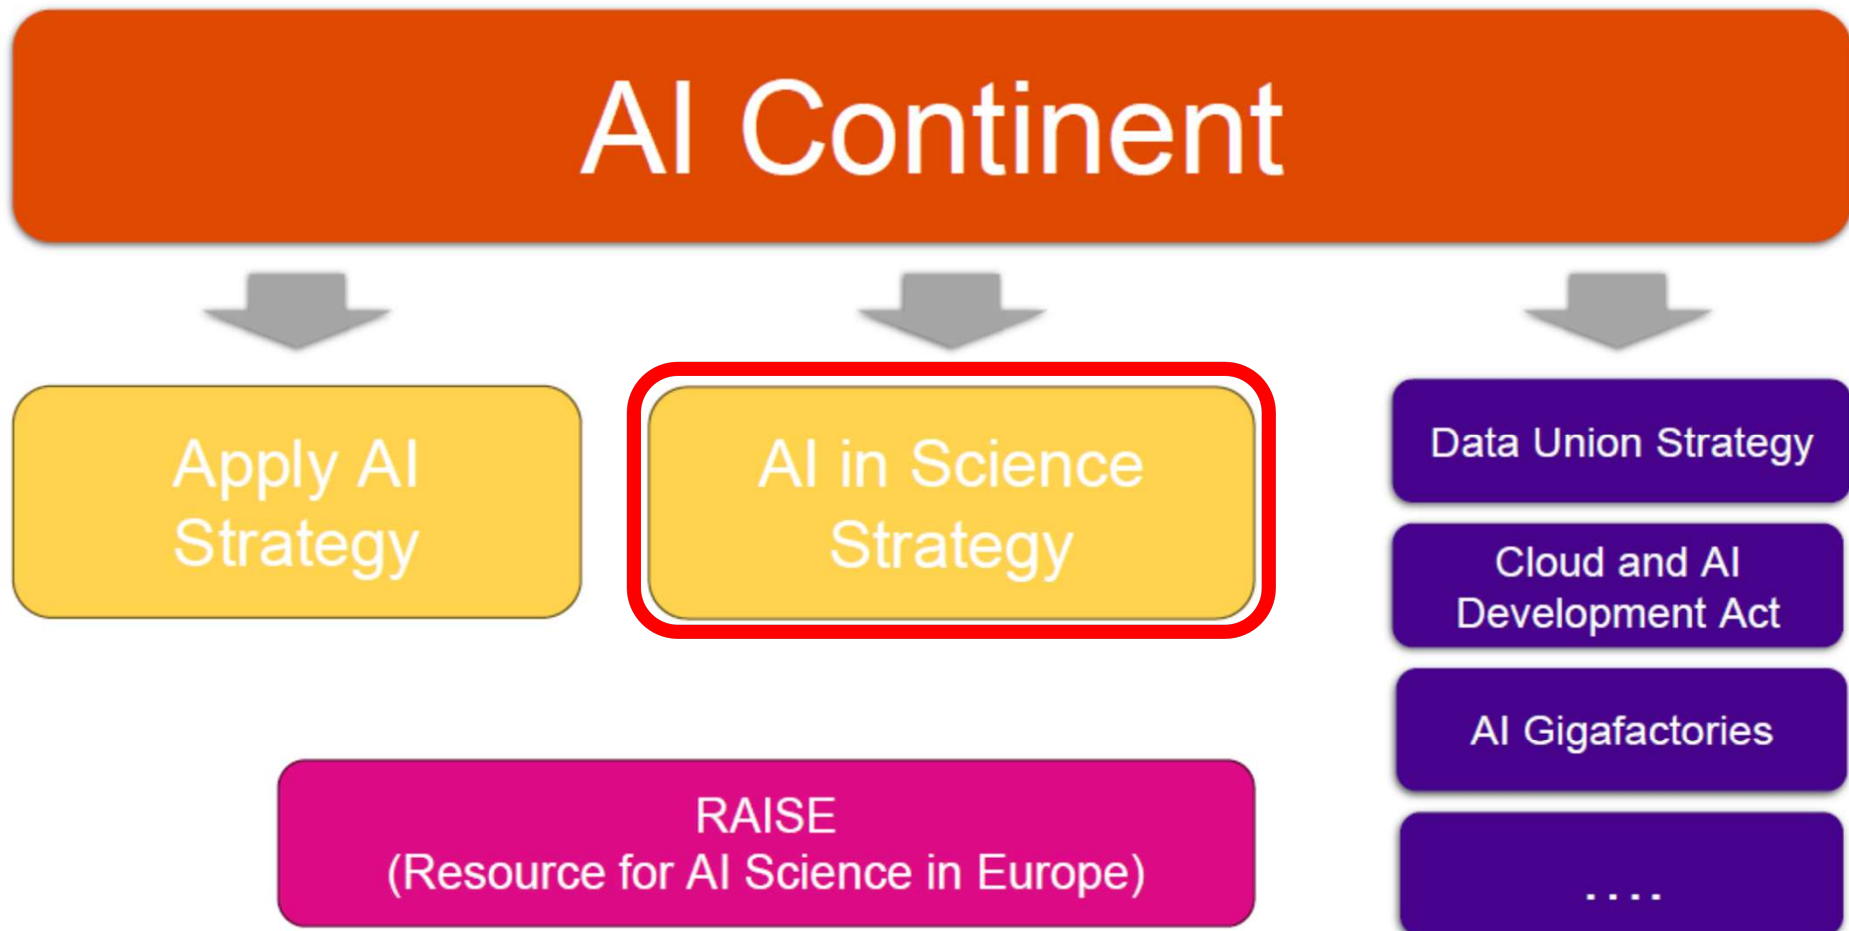

a foundation for collaboration and future involvement, for sharing best practices, and for attracting more like-minded partners

closer collaboration and engagement with stakeholders, setting up networks, and building a community

Framework of EU AI initiatives

A European Strategy for Artificial Intelligence in Science: Paving the way for the Resource for AI Science in Europe (RAISE)

Goals:

- Integrating AI in science to reinforce European **competitiveness** by accelerating scientific discovery
- Supporting and accelerating the **responsible adoption of AI** by scientists in all disciplines
- Ensure European **scientific leadership**, and **strategic autonomy**

How:

- Pursuing the EU way for AI in science – faire research, trustworthy results
- Building, attracting and retaining AI scientific talent in Europe
- Funding for excellence in AI Science
- Pooling resources by:
 - Collaborating with private sector
 - Coordinating with Member States
 - Cooperating internationally

AI in Science Strategy & RAISE

AI in Science Strategy

Horizon Europe Calls 2026

Support to applicants

Horizontal Activities in HE Work Programme 2026-2027 – AI in Science

- As part of the RAISE initiative, EC is offering €100 million EUR for five new topics to foster interdisciplinary breakthroughs at the intersection of AI and scientific discovery.
- These actions are expected to create interconnected networks.
- They will help build the RAISE scientific community which will contribute to shaping modern science.
- They represent a coordinated effort to embed AI in the scientific research in Europe and pave the way to RAISE.
- Legal entities established in China are not eligible to participate in any actions falling under AI in Science (more in the General Annexes) !

HORIZON-RAISE-2026-01, 6 January – 21 April, 2026

Thematic Networks of Excellence for AI in Science	
HORIZON-RAISE-2026-01-01	Thematic Networks of Excellence for AI in Science (RAISE pilot) (RIA)
HORIZON-RAISE-2026-01-02	Thematic Networks of Excellence for AI in Science – Agriculture and Environmental Pollution (RAISE pilot) (RIA)

Expected outcome: Network of excellent labs in the 2 selected thematic areas - material science, and agriculture and environmental pollution - to pool talent and expertise operating as a virtual institute across Europe as part of RAISE

HORIZON-RAISE-2026-01-MSCA,

28 May – 24 November, 2026

Doctoral Networks for AI in Science (based on MSCA doctoral networks)

HORIZON-RAISE-2026-01-03	RAISE Doctoral Networks for AI in Science (RAISE pilot) (TMA Doctoral Networks)
HORIZON-RAISE-2026-01-03	RAISE Doctoral Networks for AI in Science (RAISE pilot) (TMA Doctoral Networks – Industrial Doctorates)
HORIZON-RAISE-2026-01-03	RAISE Doctoral Networks for AI in Science (RAISE pilot) (TMA Doctoral Networks – Joint Doctorates)

- the application is submitted to the call for Marie Skłodowska-Curie actions (MSCA) Doctoral Networks 2026.
- The application must express interest in participating in RAISE doctoral networks and demonstrate thematic consistency with the RAISE call.
- The application must meet all MSCA doctoral network eligibility and admissibility requirements.
- RAISE applications will be evaluated based on MSCA criteria and scoring system.

HORIZON-RAISE-2026-01-MSCA, 28 May – 24 November, 2026

Expected outcomes for doctoral candidates:

- New research and skills in the application of AI in Science, leading to improved employability and career prospects in/out academia;
- Enhanced networking and communication capacities with scientific peers and the general public to increase the impact of research and innovation.

Expected outcomes for organisations:

- Improved quality, relevance and sustainability of doctoral training programmes and supervision arrangements;
- Enhanced cooperation and transfer of knowledge between sectors and disciplines;
- Increased integration of training and research activities between participating organisations;
- Boosted R&I capacity and uptake of AI in Science;
- Increased internationalisation and attractiveness,
- Regular feedback of research results into teaching.

HORIZON-RAISE-2027-01,

22 September 2026 – 2 February 2027

coming

Automated Labs for AI in Science	
HORIZON-RAISE-2027-01-01	Automated Scientific Discovery (RAISE pilot) (RIA)
HORIZON-RAISE-2027-01-02	Automated Scientific Discovery - Food (RAISE pilot) (RIA)

Expected Outcomes:

- Development of closed-loop scientific experimentation systems;
- Integrate automation with AI-driven, trustworthy decision-making processes in existing laboratory environments;
- Accelerated scientific discovery with increased efficiency and reproducibility;
- Prototypes of functional demonstrators that showcase the integration of automation with AI-driven decision-making.

HORIZON-CL4-2026-04, 15 January – 15 April, 2026

D4: Achieving open strategic autonomy in digital and emerging enabling technologies – AI Continent		
17 mio EUR	HORIZON-CL4-2026-04-DIGITAL-EMERGING-01	Apply AI: Pilot of the „Science for AI“ Pillar of RAISE („Resource for AI science in Europe“) (RIA)

RAISE will be a virtual European institute that supports also science for AI:

- Set up a network of excellent AI labs strengthening collaboration in European AI research;
- Establish a model of cooperation among these labs and support the development of a strategic research agenda for fundamental research in AI;
- To ensure openness, the project will establish a call for expressions of interest to identify additional leading European AI research labs and individual experts;
- Work in close collaboration with other initiatives in the European AI landscape.

Tips for Prospective Proposers

- ✓ **Seek assistance from National Contact Points**
- ✓ **Check carefully** (including additional!) **admissibility and eligibility conditions**
- ✓ **Read carefully the topic** description („scope“, „expected impact“) – will your proposal match the expectations?
- ✓ **Fill in the proposal templates** following the instructions
- ✓ Fill in properly the mandatory annexes!
- ✓ **Address thoroughly the selection and awards criteria**
- ✓ Respect the **page limits**
- ✓ **Clearly describe what** you will achieve **and how** will you do it
- ✓ Choose your **consortium based on your project needs** (e.g. no duplications or partners without clear responsibilities,...)
- ✓ **Describe carefully the impact**
- ✓ **Submit (a first version) well before the deadline**
